

Tight-Head Containers from Quality Minded Experts

Containers built for the responsibility they carry.

Since 2005, K LW Plastics has been a leading manufacturer of UN rated and non-regulated, 1-7 gallon tight-head containers serving a number of different markets. Our success can be directly attributed to our value-added process and focus on **Quality, Service, Technology and Sustainability**.

Quality. K LW is ISO 9001:2008 Certified and works to continually improve our processes and ensure in-use reliability for our customers.

Service. Our care-team approach is at work, every day on every need to ensure customer success. Our customer service team knows your account and is standing by to answer any questions you have.

Technology. K LW implements and maintains state-of-the-art manufacturing technology and highly automated processes to deliver true product advantages.

Sustainability. K LW is committed to doing more with less. Through continuous innovation, we are using less raw material, recycling more and incorporating alternative materials .

K LW is headquartered in Monroe, Ohio with additional manufacturing facilities in Fairburn, Georgia and Houston, Texas. We are committed to helping you succeed and adding value to your business
