

KLW Plastics Announces UN Rating for E-Tainer® Kube

Monroe, OH – October 6, 2015 - [KLW Plastics](#), a leading manufacturer of 1-7 gallon, tight-head plastic containers and high performance combination packaging, is proud to announce that their E-Tainer® Kube meets UN 4G combination packaging standards and is authorized for Packaging Groups II and III liquids.

The [E-Tainer Kube](#) is a semi-rigid bladder housed in a corrugated overpack. The bladder is designed to collapse as product is dispensed. Its non-glug design ensures a continuous, uninterrupted stream as product flows from the E-Tainer Kube. This combination package offers source reduction and cost savings to all users. The corrugated case is 100% recyclable and weighs up to 30% less while maintaining container strength and integrity. The E-Tainer Kube is available in 5L, 10L, and 20L sizes in a 4-sided or 8-sided corrugated overpack.

“Receiving the UN rating for our E-Tainer Kube is a testament of our commitment to providing the industry with high performance packaging solutions,” said Scott Dowrey, President and CEO. “We remain focused on delivering continuous value to our end-users and distributors while ensuring the safe shipping and storing of hazardous materials.”

The E-Tainer Kube is part of the [E-Tainer®](#) line of products. The E-Tainer family is a UN rated line of high performance packaging solutions that help companies achieve their sustainability goals while driving out costs in the supply chain. E-Tainer products include tight-head containers made from 60-100% post-consumer resin, a lightweight, rigid container in a box, and a semi-rigid, collapsible bladder-in-a-box.

About KLW Plastics

KLW Plastics is a leading manufacturer of 1-7 gallon, tight-head plastic containers and UN rated, 4G combination packaging serving a number of different markets. KLW’s E-Tainer line includes UN-rated tight-head containers made from 60 to 100 percent post-consumer resin and 4G combination packaging including a lightweight container-in-a-box and a semi-rigid, collapsible bladder-in-a-box. KLW Plastics is headquartered in Monroe, Ohio with additional manufacturing facilities in Houston, Texas and Atlanta, Georgia.
